旅程之“余”

The drawing depicts a boatman rowing a boat forward while a couple sits at the back. The man is reading a book when the woman is throwing rubbish into the river. Meanwhile, the boat is surrounded by a large amount of garbage floating on the river.

The intended meaning of the drawing is to highlight the issue of pollution in our water bodies. The couple's actions show a disregard for the environment and the negative impact that their actions have on it. It also highlights the fact that many people are unaware or choose to ignore the damage caused by their actions.

The drawing is a powerful reminder of the need to protect our environment. It highlights the importance of individual responsibility in keeping our surroundings clean and healthy. It also serves as a call to action for all of us to take steps to reduce pollution, conserve our natural resources and protect our planet.

In conclusion, the drawing is a stark reminder of the impact of pollution on our planet. It serves as a warning of the damage we are causing and highlights the need for immediate action. It is our responsibility to take care of our planet and ensure that it remains a healthy and sustainable place for future generations.
